# KENDALL MURDER Baffles Police

## JAP ELUDES THE PURSUING SLEUTHS

(Continued from Page 1)

suspected slayer of the Kendall in custody. With the publication of the first photograph of Yamaguchi, the authorities were furnished with a definite and distinct likeness of the suspect and the police officials of the entire state were on the alert to apprehend the suspected murderer.

From different parts of the state came reports of Japanese bearing a resemblance to the published photograph being seen at Chico. A Japanese was taken into custody because of his suspicious actions. He stoutly maintained that he was a Korean and that his name was not Yamaguchi. He is being held for the Santa Rosa authorities. Reports were also received of search being made for the suspect in Alameda and San Jose.

## Japanese Doubt Yamaguchi's Guilt

SAN FRANCISCO, Aug. 9.—The Kendall murder has aroused great interest in the Japanese colony, of which city and the two daily Japanese publications are devoting considerable space to the accounts of the case.

A careful canvass among the leading Japanese of the city shows that there is considerable doubt in the mind of the members of the colony as to whether Yamaguchi is guilty. The few of his countrymen in the local colony who know him say that the fugitive Japanese was a man weighing but little more than 100 pounds and about the size that he could have carried through the murder. He assisted if he had any hand in the death of the victim. He was not a hardy man, as Japanese are, and his argument advanced by Japanese who had no acquaintance with him was that a Japanese murderer would not have been so easily caught. The most atrocious murder in Japan.

## UNKNOWN IN JAPAN

In this regard, Otsuka, owner of the Japanese News World, said that he had never heard of Yamaguchi. He said that he had read in the papers of the murder and that he had never once across a case where a Japanese was charged with murder or mutilated or destroyed the body. Of course, we have murders in Japan, but in all countries, such as desertion of the body, and in places in the Kendall murder, he has never been known in Japan and so far as I can find out, no such act has ever been perpetrated in Japan. In this country, I have heard of the murder of my countrymen and the Kendall murder was discovered and have asked them especially if they ever knew of such a case in which a Japanese was charged, but not one could recall any such incident.

## MUST HAVE HAD HELP

This fact leads me to believe that if Yamaguchi did have a hand in the murder, he must have had help at the time in disposing of the bodies. My belief is that others besides Yamaguchi are involved in the crime.

## Bullet Imbedded in Ranch Porch

CAZADERO, Aug. 9.—A fisherman, while fishing in the river, discovered a bullet imbedded in the porch of the ranch of the Kendall murder. The bullet was found in the porch of the ranch of the Kendall murder. The bullet was found in the porch of the ranch of the Kendall murder.

# JU JU SEEDS ADORNED NECK OF MRS. STARBUCK

Symbols Used by Buddhists Worn by Woman; Japanese Says Religion Prompted Him

For many months Mrs. Margaret Starbuck wore Ju Ju seeds which adorned the neck and wrists in the form of a necklace and bracelet. The Buddhist symbols were worn by the woman in the Kendall murder case. The woman was seen in the Kendall murder case. The woman was seen in the Kendall murder case.

In the Shinto shrine Ju Ju is not used and in this respect Shintoism differs from Buddhism, which is the most prevalent form of worship in Japan. Shintoism is a religion of 600 years ago and since that time it has been followed by the most devout in Japan. Shintoism means God and the word Shintoism means faith in a religion.

## SPRIT WORSHIP

Buddhism is more of a spirit worship than Shintoism and yields a powerful influence in Japan where the little Buddha is worshipped in the form of a statue. The Ju Ju seeds are worn after year by the devotees of Buddhism to heal ailments. Ju Ju has a suffused electric force and through its power it performs the mission of healing. Even colds and headaches are supposedly cured by this medium.

## 'KEEP QUIET,' ADVICE OF OFFICER TO MRS. STARBUCK

'Talking Hurts Case,' Asserts Detective Captain, Who Ranis About Publicity Given Kendall Murder

Bitter invective against the American press in which he accused the newspapers of violating the sanctity of the home and of invading the privacy of the private affairs of people was the defense of Captain of Detective Walter J. Petersen when questioned as to his warning for advertising Mrs. Starbuck to refuse to see any more reports or to make any further statements for publication.

Mrs. Starbuck refused to be interviewed yesterday in connection with the strange murder of the Kendall family on the Starbuck ranch near Cazadero, declaring that she had been advised by Captain Petersen and her attorney H. W. Brunk that there was no reason why she should accede to a demand that she throw further light on the subject. In view of the statement of Deputy Sheriff C. A. Reynolds of Santa Rosa that if the Starbuck resided in Sonoma county they would be in custody at this time, his attitude is considered by others who are working on the case as somewhat strange.

## CONFLICTING STATEMENTS

The numerous, conflicting statements of Mrs. Starbuck are not considered by Captain Petersen as any indication that her perfect silence is to be questioned. He has known her for several years and he said and believes her to be a noble woman. He is deeply angered that she should be harassed by the press in the effort to obtain some satisfaction from the fact of the part played by the Starbuck in the Kendall tragedy on the ranch near Cazadero.

After declaring that he felt that it was a matter of time before Mrs. Starbuck would be asked to be questioned on this matter the following proposition was laid before Captain Petersen by a TRIBUNE reporter: The Starbuck residence is the representative of thousands of citizens of this state. A crime has been committed against the life of a citizen of this state and the people have a right to know that everything necessary is being done to trace the murderer and to protect life and property.

## WANT EXPLANATION

If each one of the thousands of readers of this paper were to call on Mrs. Starbuck and ask her for an explanation of her part in this strange mystery it would be a task of enormous proportions. It is a task of enormous proportions. It is a task of enormous proportions.

## ADVISED TO KEEP QUIET

It is because there is nothing to be gained by publicity that Mrs. Starbuck is advised to keep quiet. It is because there is nothing to be gained by publicity that Mrs. Starbuck is advised to keep quiet. It is because there is nothing to be gained by publicity that Mrs. Starbuck is advised to keep quiet.

## TOLD EVERYTHING

I have no reason to believe that she has been anything but sincere. Her statements have been direct and I believe that she is telling the truth. She is a fine woman and I have no reason to disbelieve what she has said. She asked me yesterday whether it was necessary that she should be visited by long lines of reporters who come to her door.

# ROOSEVELT GIMMING TO BERKELEY IN 1911

Former President to Be Charter Day Speaker at University of California

## DOCTOR WHEELER BRINGS THE NEWS

Returned Educator Arranges to Have Colonel Make the Address at College.

BERKELEY, Aug. 9.—That Theodore Roosevelt will be the charter day speaker at the University of California March 22, 1911 was the word brought to Berkeley last night by President Benjamin D. Wheeler upon his return from his vacation trip abroad. It has been known for some time that Colonel Roosevelt would be on the Pacific coast next spring but that he had accepted an invitation to be the speaker at the charter day exercises was not made known until last evening.

President Wheeler met the former President at Oxford, England, and completed the arrangements for his visit in Berkeley. In addition to the public address on charter day, Roosevelt will deliver a series of six lectures. The subjects upon which he will speak have not yet been made public.

## INTENSELY INTERESTED

"They were intensely interested in the personality of Roosevelt and wanted to talk about him. All classes, including the students and the faculty, were intensely interested in our distinguished fellow countryman."

# 10-YEAR-OLD BOY RESCUED FROM DROWNING

CHRISTIE DAVIS, boy here, who saved life of little Archie Bearden.

Presence of mind and courageous action on the part of a 15-year-old friend saved little Archie Bearden, a 10-year-old boy, from drowning in the Los Gatos river, Los Gatos, recently.

The hero is Christie Davis, who lives with his parents at 460 Twenty-first street.

The boys were camping with the Boys' Retreat band in Los Gatos. They were playing about the bank of the river when it was proposed that all go in swimming.

Bearden, who was unable to swim, was wading about near the shore. Becoming a bolder he ventured toward the center of the river.

Suddenly he was seized with a cramp and began to sink. As his eyes were closed, Christie Davis, who was standing on the shore, turned and saw the plight of his little friend.

Running to the point on the bank close to the drowning boy, Davis plunged into the river and swam to the tip of the smaller child.

Grasping the little fellow about the waist he succeeded in getting him to the shore, where it was soon found that young Bearden had suffered little as a result of the accident.

Davis is known as one of the best swimmers of the boys' club, which has headquarters at 905 Harrison street.

### Morse and Re-Morse.

Mr. Morse is the Lincoln-Roosevelt League candidate for the office of Supervisor. His name is printed on that ticket, and he enjoys a sprinkle of the same christening that has sanctified the political person of Hiram Johnson. In Oakland and Alameda Mr. Morse is a Lincoln-Roosevelter from way back, an insurgent with the trademark tattooed over his heart. He claims the support of the insurgent reformers as one of them, and gives the proper pass-word and grand high sign to the brethren. Such is Morse in one camp. Then he appears in the other as Re-Morse. The political leopard has changed his spots and the Ethiopian in his skin, and goes vote-hunting in the Anderson jungle of Fruitvale as the promoter of the "Alden Anderson-F. F. Morse Club."

We have before us a "land-bill," as follows:

"THE MEMBERS OF THE ALDEN ANDERSON-F. F. MORSE CLUB request your presence at a mass meeting to be held at the Anderson-Morse Club rooms, corner Park and Valdez avenue Tuesday evening, August 9, 1910. Mr. Morse and other prominent speakers will address the meeting."

The bill also offers a piano solo, song and dance, a baritone solo, monologues and "a little rag-time."

It is seldom that a local politician succeeds in being at the same time a tail to two kites. But Mr. Morse has turned the trick. He dangles as the bright and beautiful tail of the Johnson and Anderson kites at one and the same time. If he finds anywhere a useful bunch of Curry voters we may expect him to be there also for Curry and votes, while the glad rag-time is vibrant on the evening air. Verily, reform is teaching old dogs new tricks in politics that the staid "regular" never dreamed of.

We hope there will be a large attendance tonight to see Mr. Morse ride at the same time two horses going in opposite directions. It is well worth ear fare.

### Oakland Harbor Seawall.

The land interests inseparably associated with the harbor improvements on the southern water front undertaken by the municipality are gradually being settled and the title of the properties required is being vested in the city. Yesterday the Harbor Commissioners closed the deal with the Oakland Water Front Company and the Puget Sound Lumber Company for their holdings between Clay and Jefferson streets from the line of First street to the ordinary low tide line, by the deposit in escrow of the sum of \$170,336 pending the transfer of the deeds. These properties were previously held by the commissioners under options from the two corporations concerned. An agreement was reached by the representatives of these companies and the commissioners for the transfer of the titles satisfactory to all parties.

The closing of this deal clears the way for the letting of contracts for the immediate construction of 2000 lineal feet of the seawall which is to be constructed on this section of the inner harbor, the remaining 700 feet included in the commission's plans being subject to the settlement of terms with the private owners of the property lying between First street and the low tide line between Clay street and Broadway. The construction of that section of the seawall must be delayed until an agreement is reached as to the purchase price.

The long delay in starting actual work on these water front improvements has been the cause of much popular impatience, which will not be wholly allayed until construction actually begins. But the commission has been confronted with perplexing conditions which had to be overcome before it could proceed with safety to the public interests. Its purpose has been to avoid condemnation suits and the long delays and uncertainties and expense which usually attend such court proceedings. If, happily, all obstacles in the way of carrying out the major part of the commission's plans in that section of the harbor frontage have been removed through an amicable settlement and all that remains for the Harbor Commission now is to go ahead with the practical features of its plans and award contracts for the seawall's construction on the lines of the approved design. The land that has been acquired for the purpose is now practically relieved of all surface obstructions, and, therefore, in a condition to proceed with the excavation of the broad trench on which the foundation of the reinforced concrete seawall is to be laid.

### The County Recordship.

The friends of County Recorder John W. Mott are rallying splendidly to his support and in the vigorous canvass which is being made in favor of his nomination as the regular Republican candidate he is making a host of new friends. Since his appointment to the County Recordship Mott has administered the office in a masterful manner and his affairs were never in better and more perfect shape than they are in today. He is courteous and obliging to all having business to transact with his office. His competency and honesty and fitness for the office are unquestioned. The public have come to learn that when they have a good and efficient officer in their service it is the part of wisdom to retain him. No greater folly can be committed than to trust to the risky experiment involved in making an official change when the incumbent, as in the case of the County Recordship, is giving entire satisfaction in the performance of his duties. Alameda county Republicans should and doubtless will give Mr. Mott a decisive majority at the primaries next week, as he certainly has a right to expect.

"Mud-throwing at Johnson has begun," complains a Lincoln-Roosevelt League organ. This same paper has been vociferously stigmatizing newspapers which support Alden Anderson as "subsidized," "Herrinized," and the "poisoned press," and calling the friends and supporters of Anderson "political porch-climbers." The most defamatory of the blackguards in the Johnson camp are the loudest to complain of epithets and harsh criticisms directed their way. Like the wolf in the fable, they are charging the lamb with muddying the water.

Beer made Milwaukee famous, but it has taken a Socialist Mayor to make it clean.

### "CAN I 'COME BACK'?"

—CLEVELAND LEADER.

### An Exceptional Bank Receivership.

The depositors of the defunct California Bank are doubtless grateful for the excellent work which the receiver, James P. Edoff, has done in the settlement of its affairs. According to the receiver's last quarterly report filed in Department 1 of the Superior Court, 65 per cent of the bank's indebtedness to depositors has already been distributed among them, and the assets still remaining to be converted into cash promises to yield an additional dividend of 10 per cent, making a total of 75 per cent recovered from the wreckage. The receiver is entitled to the gratitude of the depositors for the economy he has displayed in winding up the bank's affairs. In this respect he has established a new record among bank receiverships in the matter of the expense. The record of nearly 500 national bank receiverships shows that the cost of winding up the affairs of defunct national banks has amounted to 7 1/2 per cent of the amount distributed among depositors, while in the settlement of the affairs of all other state banks which have passed into the hands of receivers the cost has ranged from 9 to 18 per cent of the cash distributed. Up to the present time the total cost of the receivership of the California Bank amounts to only 6 1/2 per cent and when the final dividend is declared the percentage of cost will be still lower than that figure. Moreover, only one-sixth of this cost has come out of the assets of the bank when they passed into the hands of the receiver two years and seven months ago the other five-sixths having been derived from rents of property and interest collected on notes. The record that Mr. Edoff has made stands without a parallel in the history of bank insolvencies.

About twice a week the insurgent newspapers announce that Hallinger is going to resign or has been asked to resign. It requires little perspicuity to discern the object of this persistent lying.

### Told About People

Dr. Neff, Philadelphia's director of health, has set out to reduce, if possible, the number of cases of typhoid fever brought back to the city annually by persons returning from vacations. The doctor says that 25 per cent of the typhoid cases in Philadelphia can be traced directly to infection at summer outing places. He believes that many people would be better off if they stayed at home through their vacation time, declaring that they "return to the city after a short vacation weakened and run down from dissipation, late hours and the strenuous life led during their outing, instead of returning refreshed and strengthened by spending their time in a proper and beautiful manner." In a bulletin Dr. Neff gives this advice to those who do go away: "Avoid eating fruit that is green or overripe; raw fruit is not injurious. Do not frequent places where the flies are numerous, especially in the kitchen and where food supplies are kept."

Pictorially New York has been spread all over the country by newspapers and periodicals. That there is a confusing similarity about some of the places to the visitor seeing the city for the first time is evident to those dwellers of Manhattan who occasionally overhear conversations on the part of the strangers. It happened so on an open Broadway car Sunday morning as a couple from out of town took in the sights along the route. The New Yorker was first amazed upon hearing the woman declare with great positiveness that the tower of the Metropolitan Life building was the Singer building. Her husband mildly disputed the matter as the car passed northward along the rim of Madison square. But the wife knew. The tower was just like the picture, and her husband knew enough not to contradict such irrefutable evidence. As the car neared Fifty-ninth street and Seventh avenue the woman looked ahead and saw the green of the trees and the pluming foliage of the shrubs. "Ah! we are coming to a cemetery!" she announced. There was where the New Yorker got off.

Max Nordau pays his respects to the "American princess" in a recent number of the "Vienna Neue Freie Presse." She was not satisfied, he says, with her triumphs at home, but invaded Paris. And so for the first time in her history Paris has had an American opera season. It was known as Italian, but the fraud was transparent and deceived no one. The leader of the Metropolitan had leased the Chatelet theater and arranged his series of performances as prescribed by the American princess. Prices were made to her order and boxes at from 1000 to 2000 francs and seats at 50 to 200 francs were quickly taken up, while the best seats in the galleries brought 20 francs a seat. A master of ceremonies, once connected with a royal court, laid down rules which had to be observed by the people who paid these big prices. The performances at the Chatelet were triumphs of the American princess, but they were a warning also for Europe. We in Europe want art for those who appreciate the beautiful, not for the vanity of the millionaire.

### Twenty Years Ago in Oakland

At luncheon at Barnum's today the question arose as to how many horses there are in California and Alameda county. It arose out of a consideration of the alleged unreliability of statistics. Judge Henshaw suggested that the opinions of the people present be given on the subject and the result was as follows: Judge Ellsworth, 200,000; E. Nusbaum, 120,000; Charles H. Tuttle, 1-0-0,000; W. J. Dingee, 500,000; A. J. McGovern, 400,000; H. B. Moughton, 35,000; H. F. Gordon, 800,000; W. S. O'Brien, 750,000; Charles B. Overacker, 550,000; F. W. Henshaw, 150,000; Ed. H. Hamilton, 45,000; Captain Wilson, 35,000; S. H. Mitchell, 50,000; D. E. Bortone, 455,000; S. McMullan, 350,000; C. L. Davis, 105,000.

The guesses by the same people as to how many horses there are in Alameda county were as follows: Charles Overacker, 40,000; Charles Tuttle, 16,000; H. B. Moughton, 50,000; W. J. Dingee, 10,000; Judge Ellsworth, 15,000; A. J. McGovern, 20,000; H. F. Gordon, 0-0-00; W. S. O'Brien, 60,000; E. Nusbaum, 3500; F. W. Henshaw, 8000; Ed. H. Hamilton, 1750; Captain Wilson, 1350; S. McMullan, 1100; S. Mitchell, 1100.

One of the high guesses will be correct for the reason that the statistician for this year gives the number of horses on in California as 375,000.

Street Superintendent Jesso Wail files his report for the year and among other things says: "The rumor has gotten abroad that the cost of repaving and renewing crosswalks and culverts during the year reached the sum of \$20,000. I give a statement of the actual cost of said work and, as the total cost of the street work proper (excepting sewers, parks and sprinkling) amounts to only \$25,000, the absurdity of such a rumor is apparent."

J. West Martin of the Board of Public Works tells the Board of Health that the former organization is considering the matter of disposing of garbage after the manner employed in New York, viz., of towing the same to sea and dumping it in deep water.

Health Officer Crowley says that he prefers the destruction of garbage in a crematory to that of shipping to sea, for the reason that the removal of the same by shipping would be more expensive than cremation and that incineration was a harmless plan. The fumes from a crematory, he says, are not deleterious and would not be even disagreeable if located in any one of the convenient locations in the city.

### PENSIONS Lapse Slowly

The last of the pensioners of the old Marshalsea court, which was abolished as long ago as 1813, survived until February last. He was John Griffiths and was bailiff or officer of the ancient institution, with jurisdiction of all offenses committed in the verge of the royal palace. Though no business was done in the Marshalsea court since a decision of Lord Coke, it was regularly opened and adjourned until abolished by parliament.

There is still in existence a "compensation" pension for "loss of post fines" in the reign of William IV, to which Sir E. H. W. Hulse, Bart., is entitled. It amounts to £10 4s. 6d. a year and is suspended during the minority or the present baronet. Annual pensions which will come to an end with their present holders are as follows: Lord Seaton, £2000 (\$10,000); Viscount Hardinge, £2500 (\$12,500); Viscount Gough, £2000 (\$10,000); Lord Raglan, £2900 (\$14,500); Lord Napier of Magdalen, £2000 (\$10,000).—London Daily News.

## FATE STEERS AUTO INTO VERY JAWS OF DEATH

Chaufeur Has Narrow Escape From Being Ground to Pieces by Train.

PURSUED BY POLICE HE KEPT ON COURSE

Machine Smashed to Splinters by Automatic Gates of Railroad.

A wild dash through the streets of Oakland at 2 o'clock in which pedestrians and automobiles were sent scurrying, ended when William E. Palmer, a chauffeur who had been out on an alleged joy ride, crashed his machine into the safety gates of the Southern Pacific local line at Seventh and Ordway streets. Just before the crash, the car had been pursued by several members of the Oakland police department, who attempted to pull him in to what seemed certain death beneath the wheels of the Southern Pacific locomotive.

### MISSES DEATH.

It was only the long steel arm of the safety gate which gave his life, compelling him to stop just before the wheels of the train. Palmer, who had been out on an alleged joy ride, crashed his machine into the safety gates of the Southern Pacific local line at Seventh and Ordway streets. Just before the crash, the car had been pursued by several members of the Oakland police department, who attempted to pull him in to what seemed certain death beneath the wheels of the Southern Pacific locomotive.

## TO HEAR LECTURE ON TUBERCULOSIS

Pictures to Be Shown of the Causes of "White Plague" by Physician.

There will be a free stereoscopic lecture on tuberculosis tomorrow evening, beginning at 8 o'clock, at the grandstand of the California League baseball grounds at Grove street, under the auspices of the San Francisco Improvement Club. The Alameda County Society for the Study and Prevention of Tuberculosis is in charge of the arrangements for the event, and addresses pertinent to the subject will be delivered by Dr. Edward von Adelstein, president of the county organization, and in charge of the local outside work of the "white plague," Dr. A. S. Kelly, of the Oakland House of Education. Dr. Kelly is president of the Oakland Board of Health, and Supervisor John F. Mullins.

McConnell and Speedy Officer Robinson, the flight of the big touring car through the night streets of the city was one of the most sensational "joy" rides ever witnessed in this city. Palmer sat at the wheel, his hair swept back from his forehead by the wind, his eyes intent upon the road ahead of him.

Without seeming to see wagons, automobiles or policemen who got in his path, he kept a course straight as an arrow down the street. He was going, according to the officers at the scene of the accident, at a rate of exceeding thirty-five miles an hour, and seemed to be in a trance as he sent wagons of the night scurrying for cover.

The commands of the officers that he halt went unheeded, they declare as the man sped on. Right in his path was the Seventh-street line of the Southern Pacific Company, and the late train for San Francisco was just about to start. With horror the pursuing policeman saw the car approach, and he tried to change his course or slacken his speed.

Palmer made no effort to change his course or slacken his speed. As he approached the crossing the car saw the long arms of the safety slowly descending. The machine sped on, but the arms had been set level across the street before the auto reached it. There was a crash, the sound of breaking glass, and a shout from the chauffeur. The train rushed by, the lights flashing from the windows upon the stricken wreck that had crumpled up within a few feet of death. The officers hurried to the wreck, there to find a center locked behind the wheel of his machine but unharmed.

## TENNIS PLAYERS TO SEEK HONORS

Coast Championship Will Be Contested on the Courts at Berkeley.

BERKELEY, Aug. 9.—Arrangements are being perfected by Prof. R. T. Crawford for the tournaments of the Pacific States Lawn Tennis Association, which are to be held in this city for the coast championship on the University tennis courts August 24-27. There will be five tournaments in all—men's singles, men's doubles, ladies' singles, ladies' doubles, and a tournament for ladies not in the championship class. Many entries have been made and the event will draw large attendance from the bay cities and from distant points. For the accommodation of spectators a grandstand is to be erected in Barrows street, adjoining the courts. The main attraction of the four days' tourney will be an exhibition match between Max Sutton and Hazel Hotchkiss. Miss Sutton was former international woman champion and Miss Hotchkiss is present national champion. The match will be played the afternoon of August 27.

## PRESIDENT NAMES DELEGATES TO CONGRESS

Those Who Will Visit Los Angeles in September Appointed by Taft

BEVERLY, Aug. 9.—President Taft has revised his plan for dividing his work and play during the remainder of his vacation period. Heretofore he has picked the two individuals to whom he would announce that in the future he would receive visitors by appointment Mondays, Wednesdays and Fridays, reserving the other days for recreation and seclusion with his family.

### NAMES DELEGATES.

The President today appointed the following delegates to the thirtieth annual American mining congress to be held in Los Angeles September 25 to October 1.

John Hays Hammond, New York; Curtis H. Lindsey, San Francisco; Dr. James Douglas, New York; J. Pease Channing, New York; Dr. H. Foster Bain, San Francisco; Dr. Walter H. Ingalls, New York; E. W. Parker and E. G. Henderson, of the Geological Survey, Washington; Jos. A. Holmes of the Bureau of Mines, Washington; and G. S. Rice, Bureau of Mines, Pittsburgh.

Bellbird With Four Beady Eyes Presents New Problem To Farmers

LAWRENCEVILLE, Pa., Aug. 9.—Owing to the farmers being so busy engaged in haying and harvesting, the work of gathering the rattlesnake crop has slipped during the last week in the North Tier. But as soon as the products of the field are garnered, special attention will be given to culling the yield of the barrens.

Now, suppose the Lawrenceville correspondent had sent in a story like the following, couched for its accuracy, published in the last issue of the Brannell People, would the department of zoology turn over several times and maybe bite itself? Here our own sober eye on Wednesday of last week the double-headed young rattlesnake caught a couple of weeks ago on an island in Back creek.

It was a sure-enough rattlesnake some six or seven inches long, about the size of the largest part of the body of a pipestem, and beautifully marked. One head was a little larger than the other, but both were fully developed. There was a little button on the tail, showing that the age was about a year. For a sight of this great curiosity we thank W. R. Laird.

On going out to milk, W. A. Mitchell, of Hills Creek, killed a rattlesnake that extended four feet and had eight barrenes. That the milking act had been successfully performed before he got there is denied.

North Tier people are not satisfied to kill rattlesnakes any more, but are capturing them alive for diversion. George Heyman, of Osceola, while making hay gathered one in, and before it recovered from its daze had it safely in a box with a glass top, where it can be viewed by the curious.

SAVES RATTLE. While Professor Eder of the South Williamsport High School, was working at Pine camp-mooring grounds, cutting grass, he saw a rattler. Feeling the snake on the back of the reptile's head he yelled for assistance, tied a noose over the snake and fastened it to a stake, hearing it off triumphantly. That reptile has not been heard of since.

Over at Lansing Station passengers waiting for belated trains got off the platform and killed a few billbirds for amusement. Several have been bagged and one large one got away.

More rattlesnakes have been killed along Pine creek from Backwell's to Cedar Run than in many summers. While driving from Watersville to English Center a few days ago, a man named A. G. Pettit, whose horse commenced to back suddenly and nearly put him over the embankment. So frightened was the beast, Mr. Pettit could not leave it, but his wrist cut, secured a club, and put the reptile out of existence. It was a black one, four feet long with ten rattles and a period.

While cradling rye Monday on Tower Hill, Ed Phillips crawled to rest a rattlesnake four and one-half feet long. It sported ten chimes.

A New York man has a nose for snakes at home and abroad. Charles Yahn, a New York Central fireman, who a few weeks ago, killed down at Pine Creek the biggest copperhead ever seen in that region, last week slaughtered a blacksnake that was six feet four in its stocking foot.

Stableman Is Found Dead in His Bed

A victim of heart failure, it is believed, Joseph Duwald, an aged stableman, was found in his bed in the basement at 121 Belling street at 6:45 this morning, by neighbors who were in the habit of awakening him in the morning to go to his work. The body has been taken to the morgue and an inquest will be held.

Duwald, who was 65 years of age and a native of Canada, had suffered from heart trouble for some time. He retired at midnight, and at the time made no complaint concerning his health. He was single and it is not known whether he has any relatives in this city.

## CLASH OF WOMEN MAY CONVICT WENDLING

WIFE OF WENDLING WILL BE CONFRONTED BY WOMAN IN CASE TO MAKE HIM CONFESS

### POLICE WILL PLAY ON JEALOUSY OF SPOUSE

Chief Thinks She Will Tell All When She Learns of Man's Perfidy.

"AFFINITY" IS SEEKING PORTION OF REWARD

It Was Through Her That He Was Followed and Finally Located.

TOLSONVILLE, Aug. 9.—Joseph Wendling, accused of the murder of little Alma K. Kline, a charge of Captain of Detectives J. P. Carney, left St. Louis this morning for his city and is expected here this morning in good authority that Carney is a man of integrity. Mrs. C. A. Muena, the woman in the case, with him and hopes by confronting Mrs. Wendling with the affiant of the case, to make him confess to the crime.

The police of this city are certain that the accused knows much more than she has said and when she sees the woman in the case, she will tell the truth. The police believe that the woman in the case will tell the truth and she will turn against her husband with all the force of the truth. The woman is a woman of integrity and she will tell the truth.

MRS. C. A. MUENA, who is seeking the reward for locating the accused murderer, Joseph Wendling

### POSES AS OFFICER AND DEFRAUDS INNKEEPER

Former Convict Cuts a Wide Swath as First Lieutenant in Army.

CAREER IS CUT SHORT BY PRISON SENTENCE

St. Mark's Hotel Proprietor Has Young Man Arrested and Proved Fraud.

Posing as a shining young army officer, Mendell, who was released a few days ago after serving a term in prison, succeeded in gaining the best suite of rooms in the St. Mark hotel and in running up a bill for all the luxuries to be obtained in the city. He was arrested yesterday and his posing as a shining young army officer was proved a fraud. He was found guilty and sentenced to six days in the city prison on a charge of defrauding the innkeeper. The case was tried in Judge Smith's court.

When Mendell first made his appearance at the St. Mark hotel, he informed the proprietor that he was a first lieutenant in the United States army and was in the army medical corps. He had been in the army for several years and had been in the medical corps for several years. He had been in the medical corps for several years and had been in the medical corps for several years.

### LEADERS FIGHT FOR FIRST PLACE IN AIR RACE

Great Cross-Country Aeroplane Contest Takes on an Exciting Phase.

LEBLANC AND AUBURN EASILY TAKE LEAD

Machines Shaken in Eddies While Passing Over Forest of Toul.

NANCY France, August 9.—Leblanc and Auburn again led the way in today's leg of the cross-country aeroplane race. The second section flight was from Toul to Nancy, a distance of 100 kilometers or approximately 62 miles. This time between the leaders was an exciting one. Auburn started five minutes earlier than Leblanc and the men were within sight of each other until they landed near Toul. Leblanc's machine proved the swifter and he gradually overtook the other, reaching the goal thirty seconds ahead of his rival.

Both men used 150-horsepower monoplanes and steered by compass, their positions from the forest which had been placed on the course. Auburn's machine was a biplane and Leblanc's was a monoplane. The machines were shaken in eddies while passing over the forest of Toul. The machines were shaken in eddies while passing over the forest of Toul.

### ACTUATED BY AVARICE

It is known that Carney induced Mrs. Muena to come to St. Louis from Kansas City. She is no longer actuated by any feeling of love for the accused man, but she believes she will receive a large slice of the big reward offered for the capture of Wendling. She is actuated by avarice and she will come to St. Louis to aid in the conviction of the man.

That the woman was largely instrumental in furnishing the authorities with information regarding the whereabouts of Wendling is generally admitted. When Wendling first disappeared from St. Louis, she was in the city and she was in the city. She was in the city and she was in the city.

### LOST BOY FOUND AMONG RELATIVES

Police Aid Invoked to Trace Boy Who Was Having Holiday.

While the police of several counties were searching for the missing boy, and his anxious parents believed he had been kidnapped, Clarence Costa, son of J. P. ## COMPLAIN OF LACK OF PROTECTION FROM FIRE

La Loma Improvement Club Seeks 50,000-Gallon Tank in Hills.

SPRINGS NOW BEING DEVELOPED OFFERED

Uninterrupted Thoroughfare to South Is Asked for Big Organization.

BERKELEY, Aug. 9.—Complaining that the extreme northeastern section of the city is inadequately protected from fire, the members of the La Loma Improvement Club will take immediate steps for a conference with the city council for the increase of the water supply.

Owing to the fact that this portion of the residence district of Berkeley is high upon the slope of the hills, it lies above the reach of the main water supply and the pressure is entirely insufficient for fire use.

It was unanimously voted by the club to request the city council to erect a 50,000-gallon tank for supplementary water protection and to lay mains to points where the present force is defective. The water can be obtained from springs now being developed in the La Loma hills. The owner has offered to lease his land to the city for an indefinite period at a merely nominal sum.

WANT LONG DRIVEWAY.

In order to obtain an uninterrupted thoroughfare to the south, the club will also take up with the regents of the University the matter of opening La Loma avenue through the University grounds. Such a move has been under consideration for some time and several tentative requests have been made to the authorities without success.

The matter will now be taken up in regular form and Professor A. C. Lawson of the University will read the committee in charge.

The present La Loma avenue ends abruptly against the campus and the only change necessary would be the construction of a short piece of road, bridging with one of the University road.

**Bandit Lurked Hid Near Scene of Crime**

SAN FRANCISCO, Aug. 9.—The bandit who at noon yesterday shot and killed the Rev. Father John J. Moran was lurking not far from the scene of the crime as late as 3:30 o'clock, and while the police were still seeking that nightmarish bandit, he was seen by the student by Thomas Moran, a gardener, hiding in the brush with the landowner still cowering his face and a revolver clutched in his hand.

That the bandit was hiding near the scene of the crime was discovered by the police and officers who later found the bandit.

when a machine whizzed by. He had a heavy bundle on his shoulder and did not see the automobile until it was too late to get out of the way. It just grazed him without doing him any serious injury. But a projecting belt or screen caught his watch and chain and his \$150 gold timepiece disappeared in the cloud of dust with the automobile.

The collector's reports show that one firm has five or six barrels in its possession. If it is found guilty a fine of \$3,000.00 may be imposed.
